

Astrolabe Pattern

Directions:

1. Cut along all outside lines.
2. Punch a small hole at point A.
3. Tie a fishing sinker to the end of a 15 cm (6") string.
4. Thread the open end of the string through hole A and tape it in place.
5. Glue a straw along line BAC.
6. Look through the straw at an object and let the sinker hang freely.
7. Read the altitude in of the object from the dial.
